HH Sri Swamiji's Upadesha @KSHT 7/10/22

Veera hanuman ki Jai

Mala kamandalu radhah karapadma yugme

Madhyastha pani yugale damaru trishule

Yasyastha Urdhva Karayo ssubha shankha chakre

Vande Tamatrivaradam bhujashatkayuktam

jaigurudatta srigurudatta

Sri Ganeshaya Namah

I have returned home (KSHT). Everyone is happy. I am also very, very happy. This tour was suddenly finalized. There are still visa and corona problems around. Some people are following, and some are not following the guidelines prescribed by WHO.

Wear a mask, Drink hot water, and sanitize. Corona gave necessary health lessons in the past two years.

Some people lost their relatives. Everything got upset throughout the world. (as if) nature is teaching us a lesson. We must face our karma and experience. If you avoid karma, you must experience it at the next birth. It's better to experience this birth only. There are so many kinds of problems. Don't curse your difficulties. Embrace them as your friend.

We may have made so many mistakes in our previous births. (we suffer as a consequence). We shouldn't argue, curse, or hesitate about the problems. We must just experience. The sins from previous births come as diseases in this birth. Our senses only experience the issues, our body has issues, but the soul (Atma) never has problems. We must always think that I don't have any problems.

We must train our senses. Every day, we must clean our bodies and remember the good lessons. Just as you would wear a uniform to remember you are on duty. It's not enough to chant however many times until death. It's the only permanent one. The hardships are not permanent.

We should pray to Hanuman, "Give me good strength so I can face my karma." Karma will increase as you fight more with it. If you experience it, it will vanish. I can't talk for long as it's getting late. You are waiting. The wait itself is penance. Waiting to see Swamiji, waiting to speak - that's the penance.

When we are hungry and wait for the food, the food tastes better. You have been waiting to see Swamiji, and we are all lucky that we are celebrating Gurupurnima here. Dwisahasragala (2000 voice) chanting of Bhagavad-Gita is being done here. Don't miss the programs even a single day.

We may not be able to visit, even though we are close. Make an effort to come and attend.

Four hundred children are attending from New Jersey for Bhagavad-Gita parayana. NJ is also a big group like Dallas.

Register for programs as per instructions.

Attending Dwi sahasragala parayana is a fortune for everyone, it's equivalent to listening to BG 2000 times. If we miss it, we may not get another similar event. We must not lose this opportunity. We must come and attend this event. It's very rare. Gurupurnima is also a rare event. Don't miss it.

I am pleased about all the programs today - dance, poem.

When the books were released, you heard about the book "Script for success." All children must have a copy of this book. It has examples from social studies, sciences, Mahabharata, Ramayana, and Bhagavadgita. The quotes are collected from Swamiji's speeches. The style is like 4th-grade writing. If you open the book, you will get an indirect answer when you have difficulty.

Don't lose this opportunity. Everyone must keep a copy of this modern Bhagavadgita. It's a wonderful book. You will not get it by paying millions. Reading the book is a penance.
