Parama Pujya Sri Swamiji Upadesha 3/17/2022 @KSHT Frisco TX

All of you download SGS Posts App, Shukavana SGS Birds App.

A lot of Macaws - endangered ones were also born in Shukavana. Help Shukavana protect endangered species. You must all subscribe to the youtube channel sgsbirds. Some of these birds may not even survive in natural habitat. We must protect them. Don't miss Appaji's live programs on Avadhoota Dattapeetham page. Tripura Rahasyam lectures will continue live from Mysore. Participate in all programs, the donations are small so that everyone can participate. I want to see your names, you are Datta-family members. You all helped Ashrama during Corona time. You all participated in every program available. Even though you had problems, you still helped. Special blessings to all my family members who helped during Corona. You helped for social programs of Dattapeetham also. You all migrated here and settled, I know everyone and your journey. If you stayed back in India, you may not have helped so much. You are sent here to help Dattapeetham, perhaps. Whatever problem you have, just remember Swamiji. I will be with you. You will have courage. I am giving that energy and training. You must all practice that courage First we thought of 1000 people chanting, now it's become 2000 (dwisahasra) for Bhagavad-Gita. Many people performed mass chantings with thousands of people but only a few shlokas or chapters. We are the first in chanting the complete Bhagavad-Gita with 2000 people. We must practice every day one chapter. lift your hands and promise. It's a lifetime chance. All of you help financially also to conduct the yajna. Lakshmi Kripa is needed to conduct the event.

Approach Srikanth and help. It's a 3-day program and the event hall rent itself is expensive. Dwi = two Sahasra = thousand gala = voices. two petals mean knowledge. Sit where ever in the hall and chant even if you didn't memorize. no arguments, questions regarding the event. when you speak with committee members, just think that you are speaking with Swamiji. Annadana will also be performed. Serve healthy food with a few items. help others coming from other cities. everyone must become a volunteer. this is your house, there is no manager. don't expect that someone will receive you and treat you like a guest. Everyone must help 5-10 people and guide devotees coming from other cities. some people don't even come near Swamiji, they just keep serving outside, thinking "My guru knows everything". Some others pretend when Swamiji is coming. Service done in absence is the real seva. Some people don't even want their names mentioned. Appaji has given you such training. Today is Holi festival….kama dahana. Kama means desire, discontented life should go away, and be contented with what God has given you. Bigger house, more children all of these are desires, kama… God has given us this much, let's be happy with it. Extend your feet until the end of the bed, don't go beyond - you will fall down - this is a saying in Kannada. Our body adjusts to the temperature. When Swamiji went to Kashmir, it was below freezing temperatures, Our bodies get adjusted even to those temperature.

Even wife and husband should adjust to each other. If you wait longer, adjustments happen to stay happy, doing your duty, serving Swamiji, listening to each other…we don't know where we were born and how we got together in this life. who are all the family members? we don't know where we came from After some time 80-90 years we go away we don't know where we will be born, it's impossible to say if we follow sadguru and follow our Dharma, we will all come back. We must take out our egos. Accept defeat and you will get more strength. Test it. Let anyone think anything. Then you will be happy, your mind will be fresh. You will be healthy. We are all relatives. what caste, what gotram, what name we don't know. we are carrying on well. If you want to continue this experience, carry on good traditions. wear a bindi…bottu. Teach discipline. It takes only one second to astray from the path.

Discipline takes years to practice. See how attracted the children are to Tataji. They haven't come here for candy. Think about this. If your kids are also attached, they will be happier. You must teach kids about Tataji, Ramayana, vasistha, Kashyapa other sages and equate them to Tataji. If you teach them like this, it's great security for their future. What did tataji say in SGS Posts today? Ask them daily and check. In teenage, everyone changes. At an intersection many cars change their path a little and get affected. Children will eventually come back to the right path if you keep guiding them properly. It has to be in their mind on what is the right path. You have experienced it already, why shouldn't your children experience it. First start with teaching your children instead of others You are all from India, It doesn't matter that you are here. If you think that we are not home and anything goes, your children will think even more. What happened in Ukraine? 40 airplane loads of people returned back to India.

We are struggling with our eyes, sitting near the computers and serving companies. When there's a problem, you have to return to India. There is no other place to go. That's why you must have affection towards India. You must respect this country. It has given us livelihood. But remember, India is our motherland. This land is very helpful. They are letting us celebrate, build your temple, donate tax free, just follow the rules. When we get independence day, you must sing the national anthem of USA. I am going to test you on US national anthem. I will give a gold medal to the winner. Everyone must learn. You must give respect to the country. Everyone read SGSposts, listen to Appaji's lectures.
